Torres y Ribelles

Our company was founded in 1914 when two enterprising young men acquired a factory in downtown Seville. A few years later, Torres y Ribelles became the official supplier of the Royal Household during the reign of HM King Alfonso XIII thanks to the constant efforts, dedication and knowledge of the market.

We always implement new modernization processes not only for the machines but also for the facilities. For example, we make works to create new production lines and adapt the existing ones so as to include packing of new formats. Our goal is always to satisfy our client's needs.

Due to our desire to grow by entering in new markets and consolidating the existing ones, we commercialize our oils in the five continents.

Since the 90's, we have been working on implementing quality standards. We are now certified by the ISO-9001, HACCP and FSSC 22000. These regulations are not compulsory but they make improvements in the Management of the company, not only in the production area but also in Administration.

Torres y Ribelles is also a member of ASOLIVA (Spanish Association of Exporters of Olive Oil) which main mission is to promote the export of Spanish olive oil outside our borders.

In Torres y Ribelles, we produce and pack four different brands of oils under a strict quality process, keeping our oils in tanks with nitrogen atmosphere to ensure the quality. The capacity of our tanks is more than one million liters. Our olive oils are the result of a coupage of some varieties of olives: **Hojiblanca, Arbequina and Picual**, which are packaged in tin cans to ensure optimal conservation of their organoleptical qualities for a longer time or in glass bottles with a distinguished design that makes our customers remember our product or in PET bottles with tight and competitive prices.

In addition, in Torres y Ribelles, we focus on good Customer Service and we are aware of the importance of attention and communication with our clients. Quality, distinguished design, a modern manufacturing system and quality certifications ensure a prosperous business relationship with our customers, a close contact and adaptation to their needs in the five continents.

BETIS

Our most popular brand all around the world. The taste and high quality of the oils as well as its exclusive design glass bottle make people remember the brand. We have done some market researches which conclude that BETIS' consumers are loyal and declare that our olive oil gives a special taste to their dishes.

We pack BETIS in glass bottles, tin cans and PET bottles:

- **Extra Virgin olive oil**
- **Olive oil**
- **Extra light olive oil**
- **Olive oil for cooking**
- **Seasonings:** Extra Virgin olive oil with natural essences (garlic, garlic & hot pepper, lemon & black pepper, oregano).
- **Vinegars:** Balsamic vinegar, Red wine vinegar, White wine vinegar, Glaze of Balsamic Vinegar.

Our production lines are designed to meet the needs of different markets and consumers. Our glass bottles and tins are made with a very resistant material that offers excellent protection to keep the oil fresh during transport and storage. The distinguished design and the quality of the material make our products perfect for the food service channel and retail chains such as supermarkets, traditional markets, pharmacies, cosmetic stores and more. We also have small formats like 25ml and 20ml.
