TALLER CERÁMICO

Jana-Sakina Nazari Tiling Workshop is a leading company after 25 years dedicated to design and manufacture architectural ceramic tiles.

With a large and wide experience in Spain, Jana-Sakina also made several projects in Oman, Qatar, Saudi Arabia and UAE.

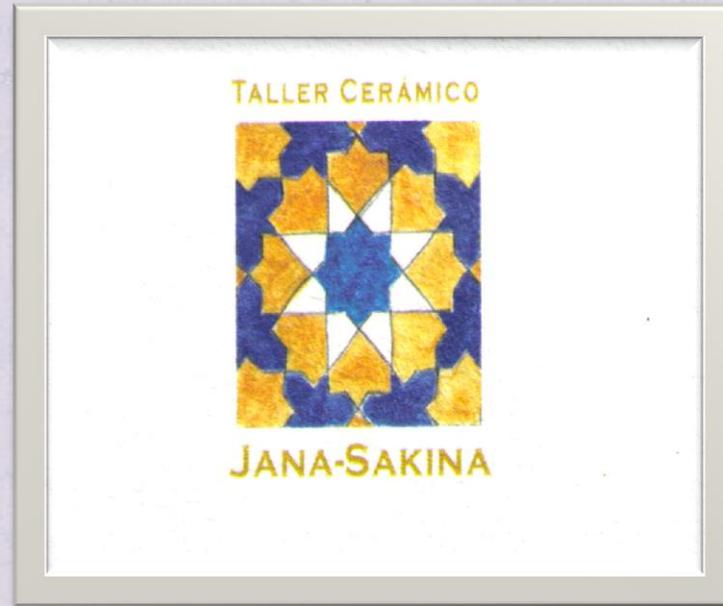

JANA-SAKINA

Specialized in replica designs of “alicatado Nazari” (Nazari Style), the very same used in the Alhambra in Granada.

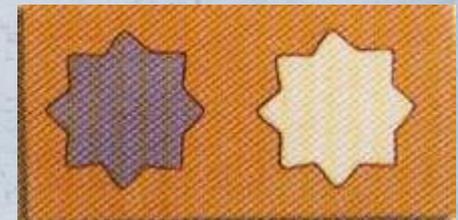

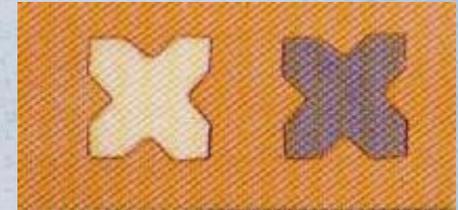

Designs are mainly floral and geometrical.

Every design and every piece is made one by one using a traditional method of hand cutting and painting.

## Hand-painted tiles

# BORDERS

**Hand-painted tiles  
using ancient and  
new designs**

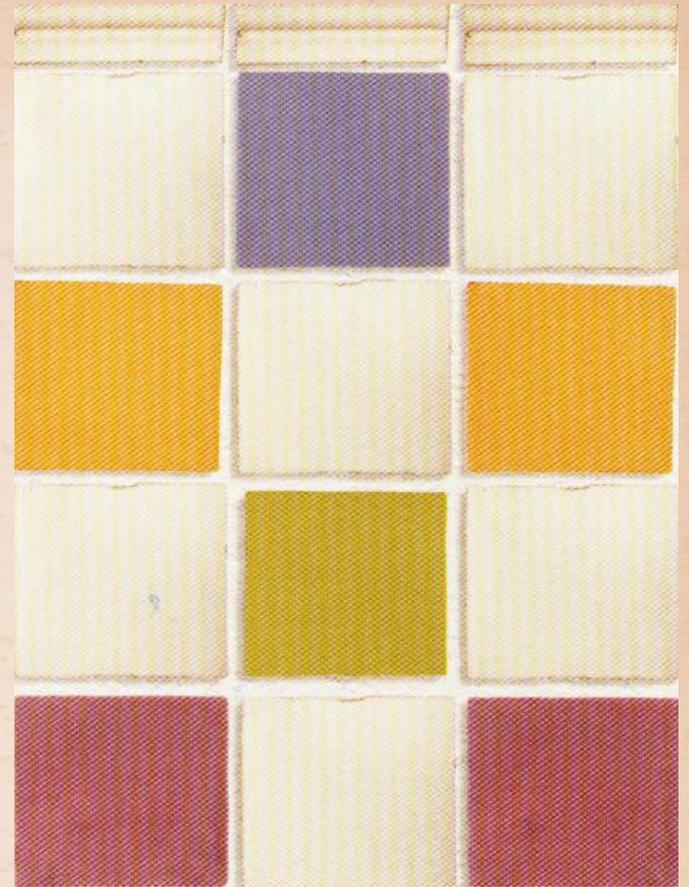

Every tile is hand-painted one by one.

We also make every design one by one, in sizes from 1 x 1 cm to 50 cm.

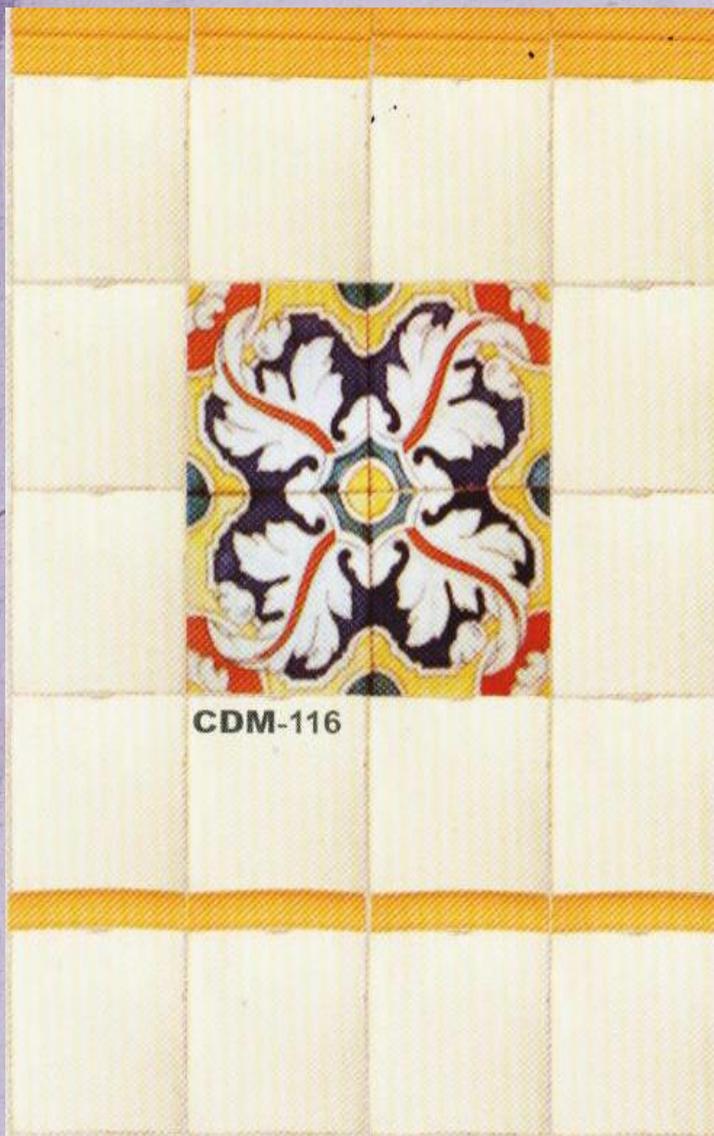

## MURALS

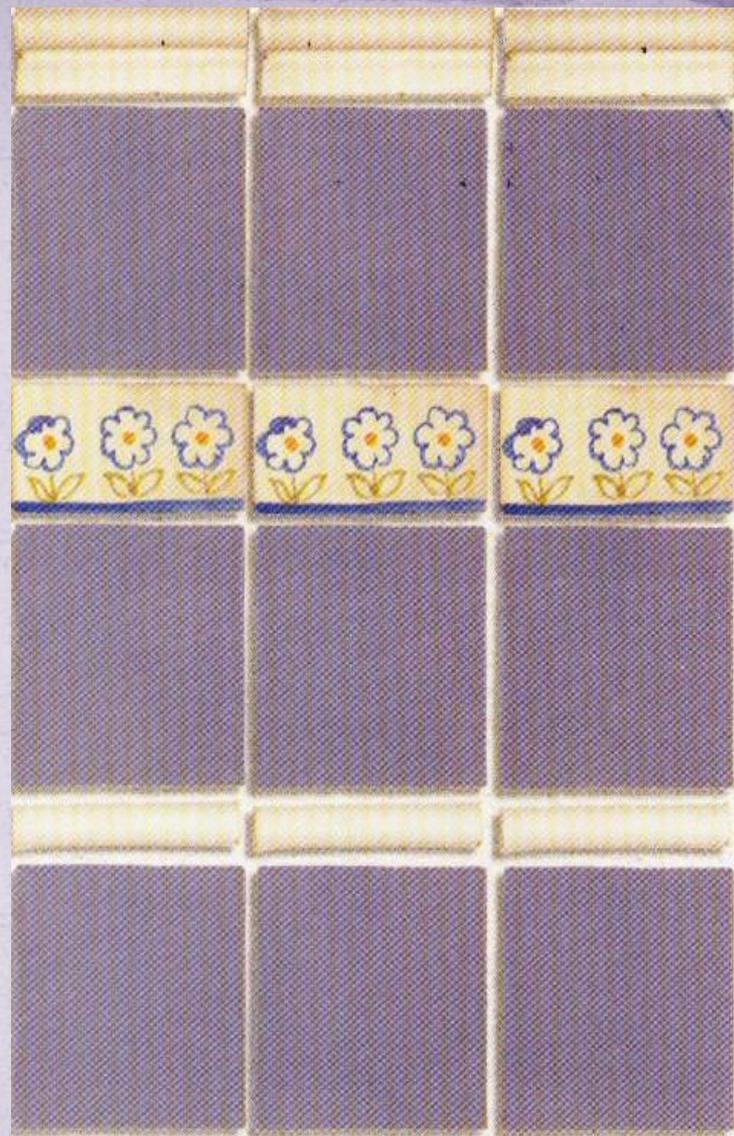

Compositions can be made mixing designs, creating aesthetic and beautiful murals.

CDM-116

## MURALS

Our designs can be applied to interiors (kitchens, bathrooms, living rooms) and outdoor (gardens, backyards, fountains, etc.)

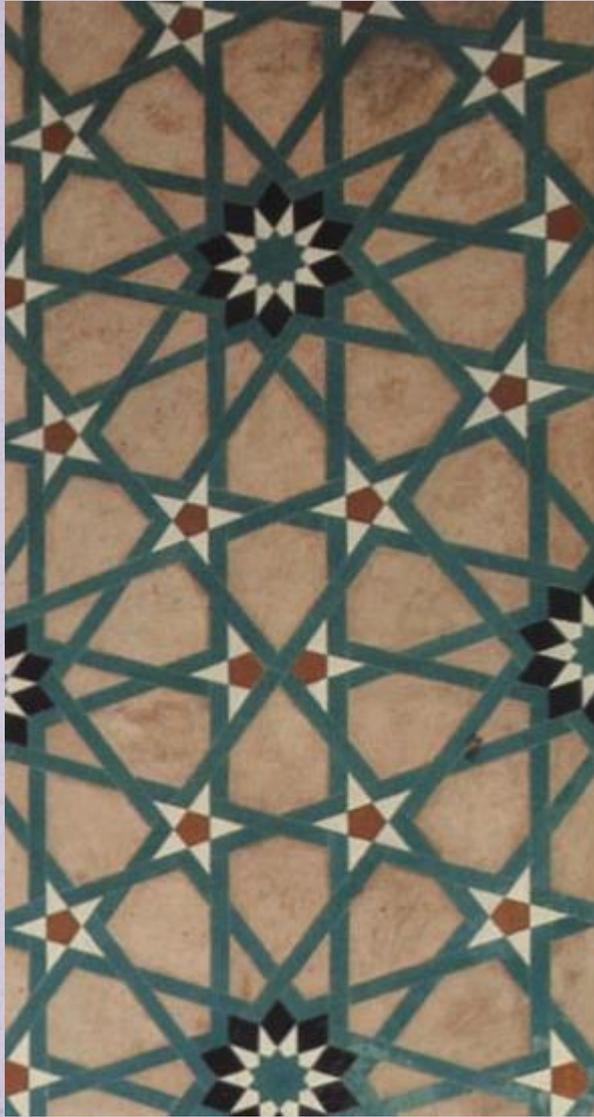

## “Técnica de Cuerda Seca” – Dry Line Technique

This technique is typical from Seville and provides a high level of quality and artistic pieces.

# “Alicatado Nazarí” – Nazarí Tiling

Nazari tiling, is a technique that was used during XII - XIV in Al-Andalus.

It consists of making a mural or mosaic pieces cut by hand, one by one, and joining them together we obtain a geometrical or floral composition.

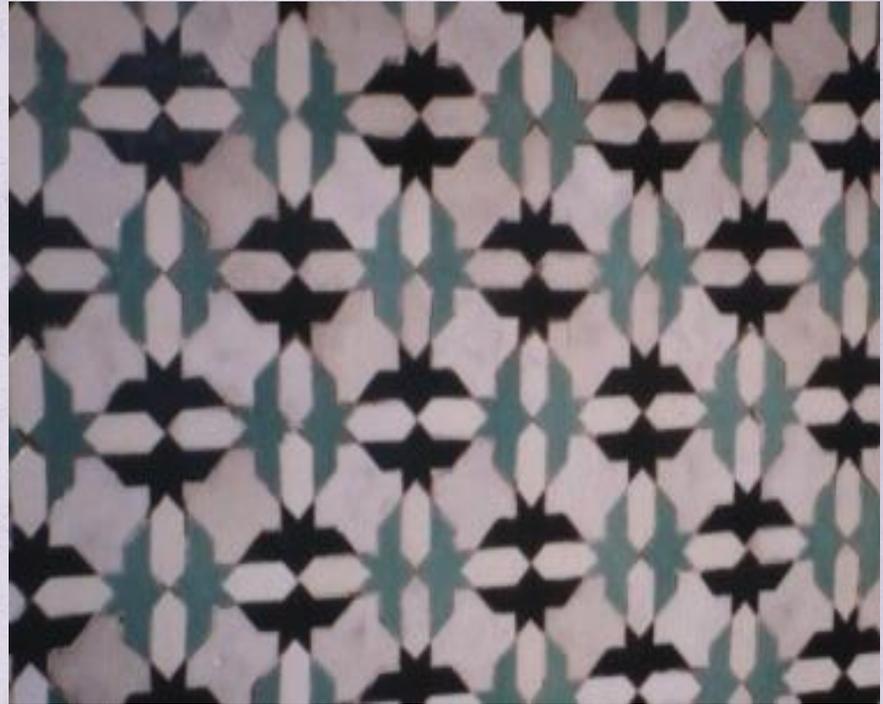

Used to cover large spaces (fountains, gardens, benches, etc.)

His compositions are of great beauty and complexity .

Ceramic Workshop recovered this technique 25 years ago and since then, has worked making tiling projects worldwide.

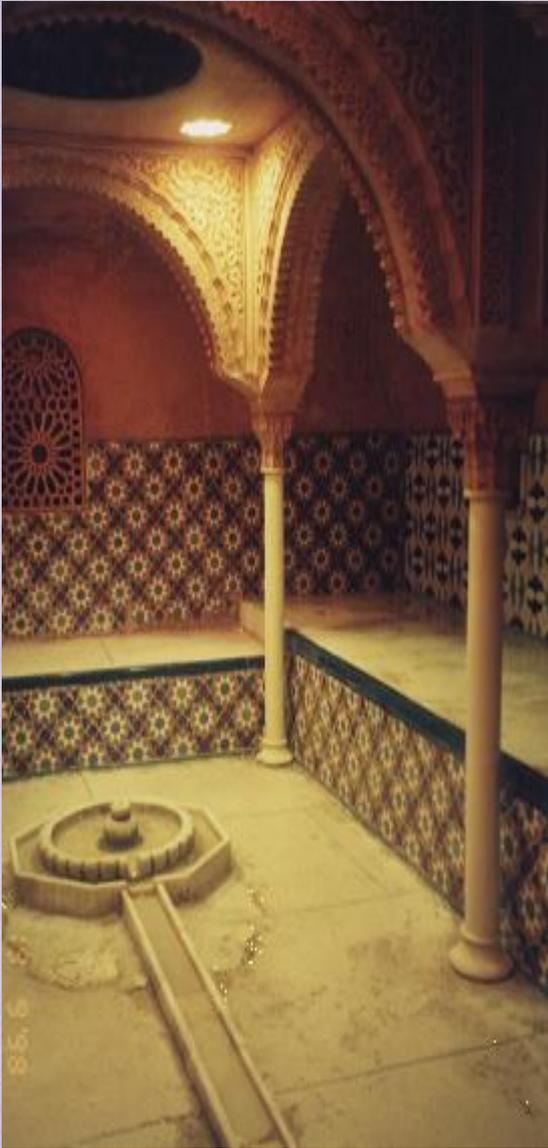

Jana-Sakina ceramic workshop has over 1,500 designs, recovering ancient designs and a unique style.

Model Comares , Arab Baths

Andalusian Nazari Tiles Workshop - Phone:(0034) 667 515 615 E-mail:janasakina@gmail.com

All these models have been made or restored by Jana-Sakina Nazari Ceramic Workshop to different customers.

## Tiling...

The assembly is like a puzzle, piece by piece,  
doing so backwards.  
Some designs come to have 3,500 pieces per m<sup>2</sup>

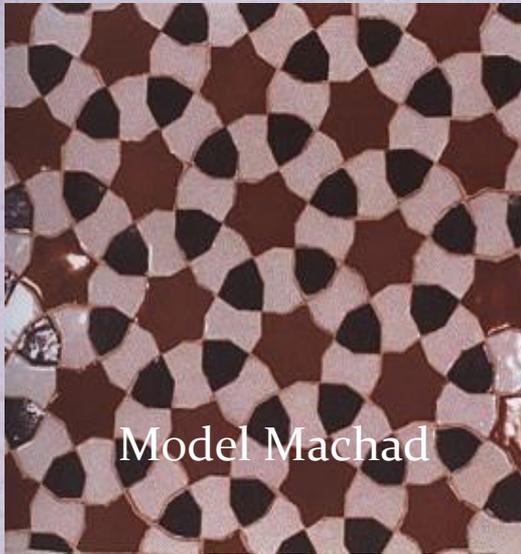

Replicas of ancient columns that we have done for different customers.
