EXTRATERRESTRIAL

peach

In that way in 2004 we started the production of flat peach variety with extraordinary properties breathtakingly natural flavour:

THE EXTRA-TERRESTRIAL PEACH.

EXTRA-TERRESTRIAL PEACH *may seem alien*

The extra-terrestrial Peach tastes like a peach very tasty, juicy and sweet, low heat, round and flat and that eats snacks while rotating through your fingers like a flying saucer.

but they are extra-terrestrials.

EXTRA-TERRESTRIAL PEACH *may seem alien*

Our plate peach contains no additives, is collected in its peak of ripeness, in just the right size, color and flavour, cultivating with integrated farming, with scrupulous reduced resource consumption, chemicals, energy, and offering them only seasonal, direct selection from the tree to the point of sale.

but they are extra-terrestrials.

The secret of The extra-terrestrial peach

*is the mime on how to cultivate them, collect them and
distribute*

EXTRATERRESTRIAL

peach

natural is extra-ordinary.

The Extra-terrestrial fields are located in Andalusia. We are producing annually around a million flat nectarines and peaches, which are the earliest of its kind, collecting them since late April until June.

In these fields, fruits are picked just right to distribute maturing quickly and directly from the Extra-terrestrial countryside to our customers.

The Extra-terrestrial

social responsibility

It is reflected from our intention to implement healthy eating habits associated with the consumption of fresh fruit.

Our commitment to integrated farming backed by quality certificates AAP Global granted to agricultural holdings caring especially production of their fruits minimizing the impact on the environment by reducing the use of chemicals and ensuring a responsible process in the health and safety of workers.

Also, The Extra-terrestrial owner was allied with the Bayer Crop Science, and part of their community (Food Chain Partnership).
