

UNIVERSITY

PROBLEM

Traditional skills training are little attractive, difficult to arrange, dangerous, expensive, unhealthy and environmentally harmful.

VOCATIONAL EDUCATION

WE NEED A PLAN!

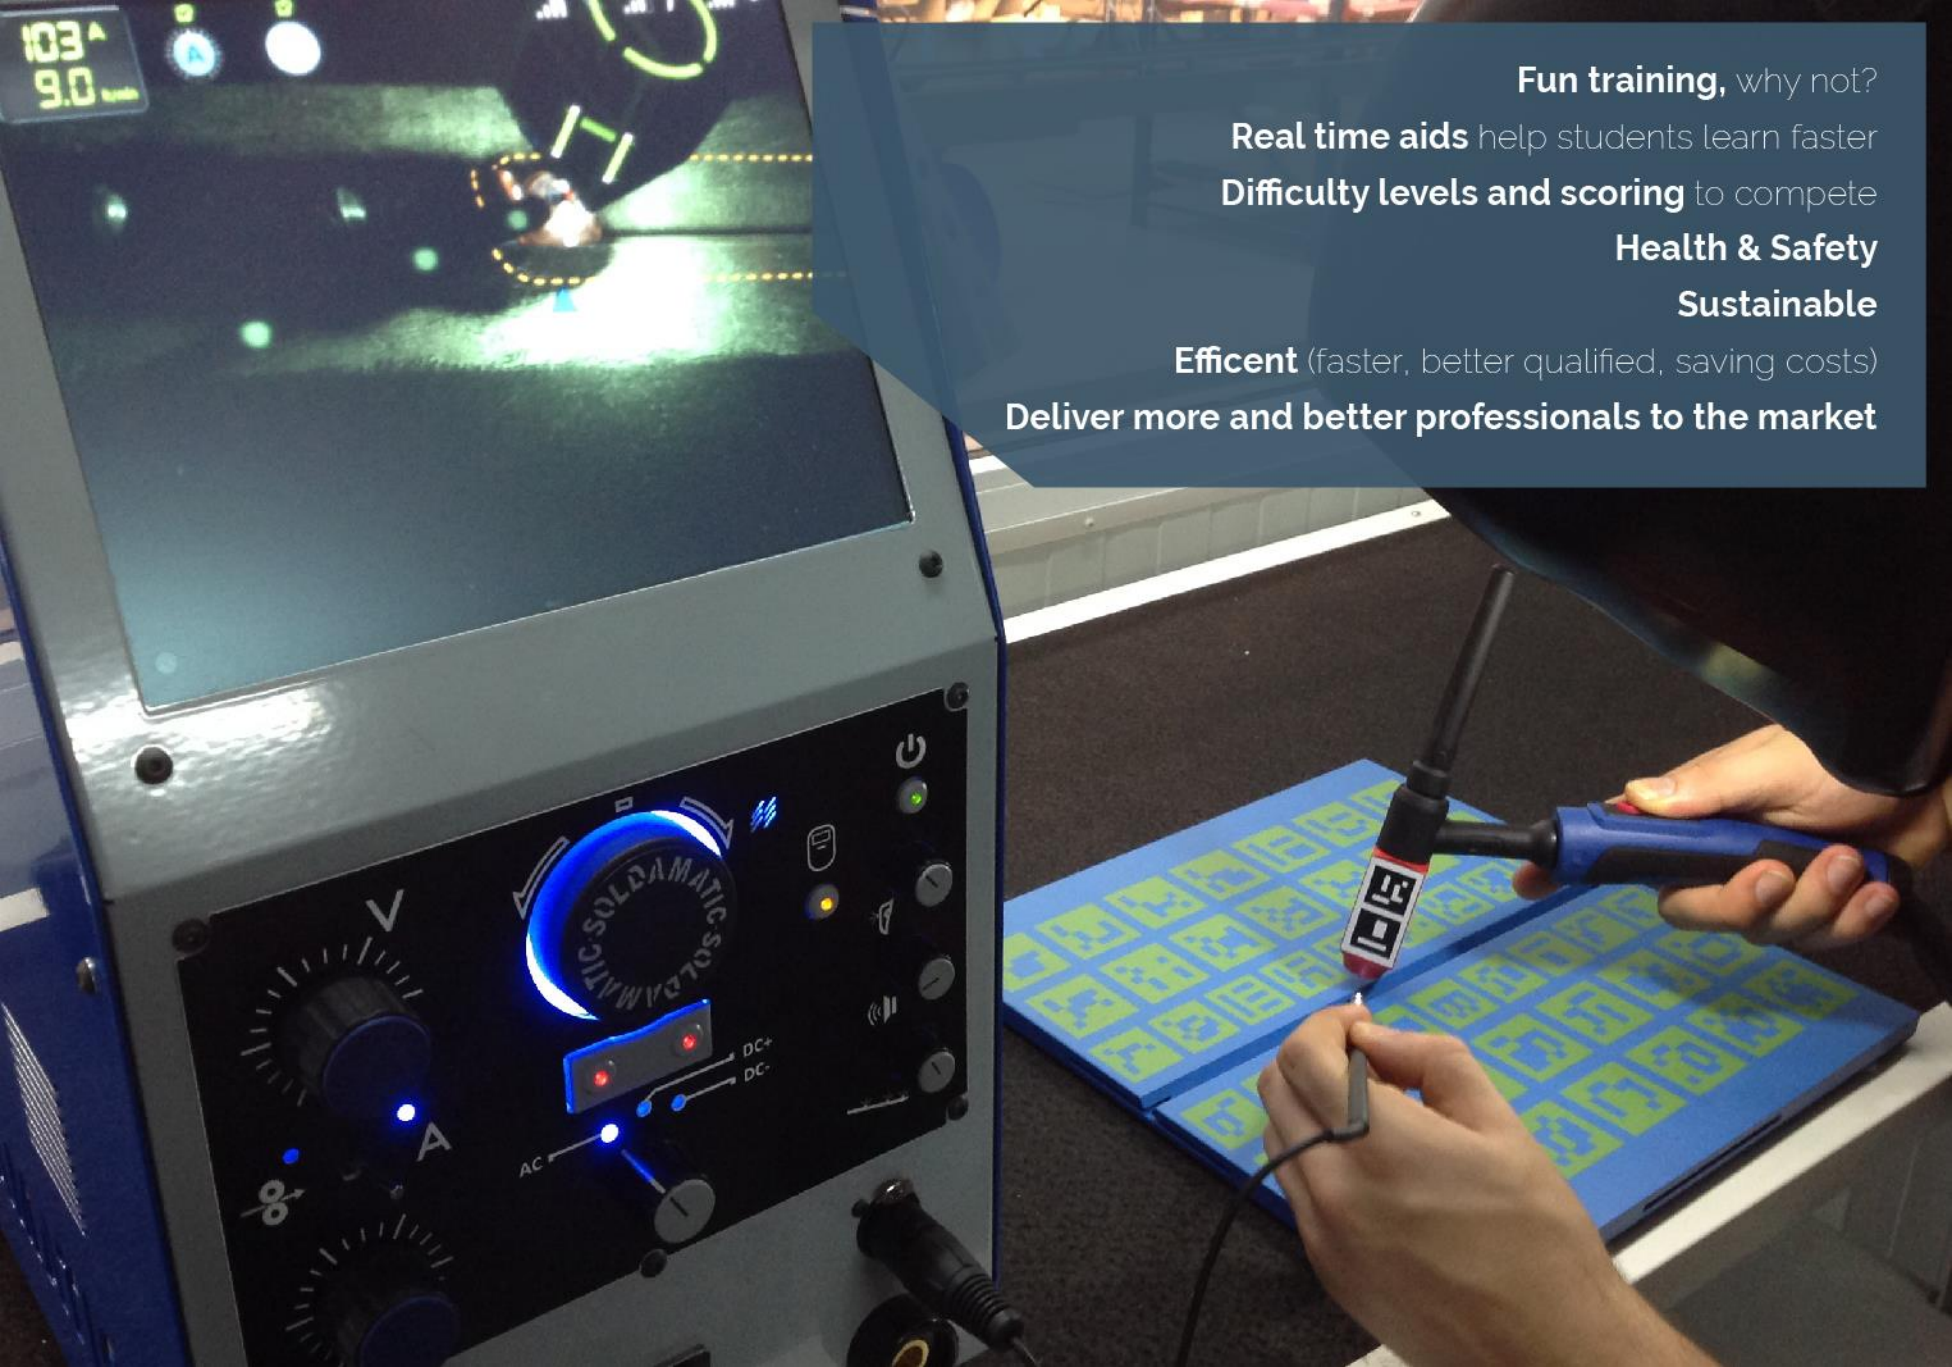

SOLUTION

A woman with long brown hair, wearing a dark blue VR headset and a dark blue jacket, is smiling and looking towards the right. She is holding a red and silver tool. In the background, a man with a beard, wearing a light blue checkered shirt, is looking at a control panel. The control panel has a red knob with a blue glow and a digital display showing '53'. The background is slightly blurred, showing a computer monitor and other equipment.

SOLUTION

AUGMENTED TRAINING AND PERFORMANCE

Pioneer technology combining augmented reality, real time advanced and fun immersive simulation, teacher management and monitoring software, cloud services, and Apps for smartphones to enhance educational experiences.

Fun training, why not?

Real time aids help students learn faster

Difficulty levels and scoring to compete

Health & Safety

Sustainable

Efficient (faster, better qualified, saving costs)

Deliver more and better professionals to the market

WHY WELDING FIRST?

HUGE SKILL WELDERS SHORTAGE WORLDWIDE

LET'S **VISUALIZE** TOGETHER

YOUNG PEOPLE HAPPY

Youth attracted to welding, finding better jobs, better qualified.

EDUCATORS HAPPY AND MOTIVATED

Teachers creating engaging experiences, improving their results.

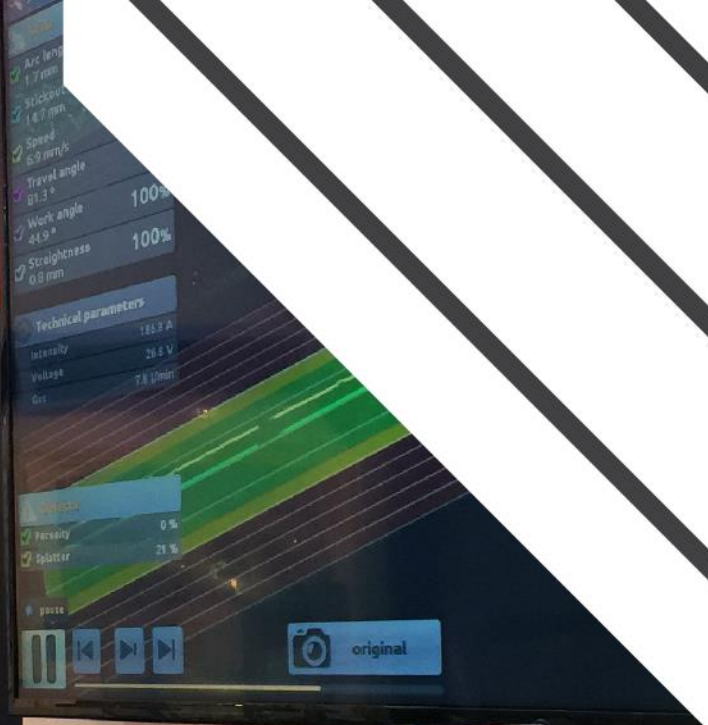

INDUSTRY MORE PRODUCTIVE

Reducing training costs, increasing quality, reducing accidents, boosting productivity.

CONTRIBUTING TO Save our planet as we reduce gases emissions to atmosphere. **SAVE OUR PLANET**

Welding Simulation

CHALLENGES
TRADITION
FEAR TO UNKNOWN
CONSERVATIVE
SKEPTICISM

OUR RECIPE

Teamworking,
Persistence and
Continuous Improvement.
