Luxeapers®

More than 60 years of experience in food sector

Company

About us

Luxeapers is a company which belongs to the food sector and it is integrated since 2008 inside a group of companies of the international food sector with **more than 60 years of experience in this sector.**

Quality is the main point in which the company activities lay.

Seriousness, tradition, innovation and take care of all our customers are our main objectives, so we have the most modern and advance technology for production, packing, food safety and commercialization.

We are compromised with a continuous process of developing, expanding and optimization of new products and sizes which satisfy the necessities of the market and the consumers.

Actually we have new installations of **10.000 m2** with the last technology and new plantations in different countries which allow us to integrate not only production and packing but also exportation and commercialization.

Investigation and developing in our company and the everyday effort of our human equipment have allowed us to be provincial winner and regional finalist in the category of best exporting company in **ALAS** awards organized by EXTENDA.

Products

Tastes and feelings

Our Brand **Luxeapers** offers a wide variety of selected pickles.

The different varieties of product are shown in any type of packing which our customer require, we adapt ourselves to any necessity of the market since the littlest jar to be used in supermarket till distribution in big sizes for industrial purposes.

Our products are synonym of quality and guarantee thanks to the application to the last processing and packing techniques such us sterilizing jars before filling, pasteurization process, optimization and X-ray inspection.
