**Visualizations about
how to breaking in
climbing shoes.**

**What if slip on your climbing shoes wasn't
the worst moment of climbing?**

What if breaking in your climbing shoes was not such a long and tedious process?

**What if you could wear a tighter size
to gain precision without further stressing your feet?**

What if you could also disinfect them and smell good?

Ey!

¡We have a product!
Let's build a brand.

Brand Values

Fun

In addition to a recently considered Olympic sport, climbing is an extremely fun sport. We want to have fun and encourage others to try it.

Nature Lovers

In nature we have lived great adventures, we have made friends, we have cried and laughed, so we can only love and respect nature that has given us so much. We will take care of and defend the environment as much as we can.

Healthy competitiveness

We understand climbing as a sports activity that leads us to constantly self-improvement, we compete with ourselves to achieve our own goals and overcome our own fears.

Partnership

We understand climbing as a sport to share, to live in community and in which you enjoy with your partner's success.

MONKEY FEET

Barefoot feeling

monkeyclimber.com

-Además has editado y publicado unos cuantos libros y guías...

Tengo varios libros de montaña, de senderismo, de turismo y de escalada. Siempre me ha gustado la divulgación. También doy conferencias, charlas y proyecciones. En el tema de la escalada siempre tuve la sensación que había que plasmar toda la historia que acontecía de una

zona o comarca. Las palabras se las lleva el viento, pero lo escrito permanece. Creo que es importante dejar testigo del legado deportivo cultural que se ha creado en torno a los deportes de montaña. Tengo claro que no soy escritor, pero sí periodista, divulgador. Me encanta compartir parte de mis conocimientos y ver que sirven para algo.

Mont Blanc visto desde el suroeste con la última luz de tarde tras una tormenta. Filtro polarizador warm montado en un 300 mm. Ver y disparar.
